

Robotics - Course Syllabus

Exabyte Academy

Overview

Electronics, Arduino, sensors, motors build real, working robots through hands-on, project-based sessions.

Duration

24 hours over 6 weeks

Topics Covered

- Electronics fundamentals & circuit building
- Arduino programming
- Sensors and actuators (motors, servos)
- Chassis assembly and wiring
- Capstone robotics project

Formats Available

- Personal Mentoring: Rs 12,000 (flat)
- Community Learning: Rs 5,000 per student
- Academy Classroom: Rs 8,000 (flat)
